

# colibrì

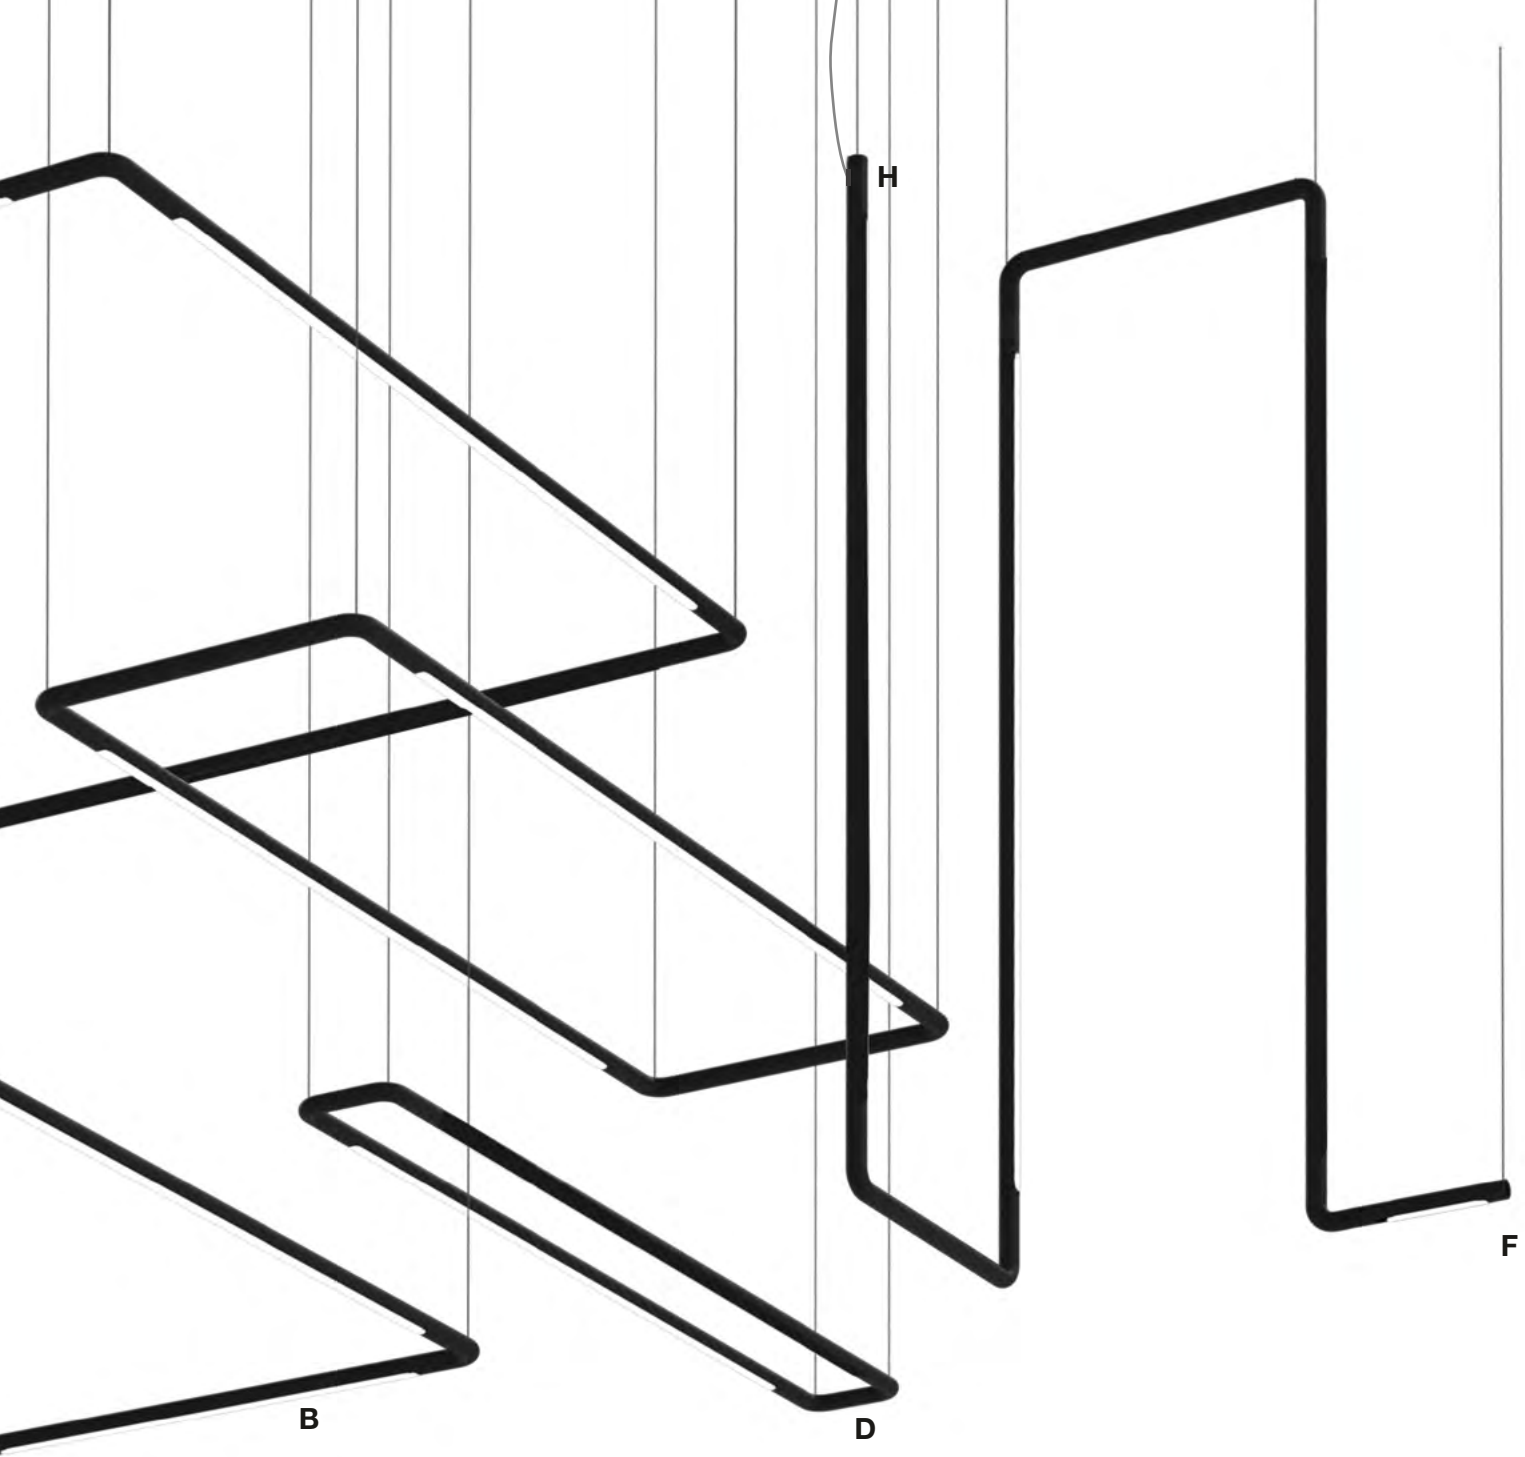

Emiliana Martinelli, 2009-2019

Colibrì è un sistema componibile a sospensione, composto da moduli lineari, orientabili, di diverse lunghezze. I moduli sono in tubolare di alluminio verniciato nel colore nero, per sorgente di luce a LED, con un diffusore in policarbonato opal bianco, uniti tramite un giunto angolare a 90°, che permette di creare configurazioni di forma quadrata e rettangolare, oltre a poter creare soluzioni libere bidimensionali e tridimensionali.

Alimentatore dimmerabile inserito nel rosone da fissare al soffitto o remoto.

*Colibrì is a modular hanging light system composed of linear swivel modules having different lengths. The modules are in tubular aluminum painted black. For LED light source, with a white opal polycarbonate diffuser joined through a 90° corner L-joint that also allows creating square or rectangular configurations, as well as creative two-dimensional and three-dimensional solutions. Dimmable driver inserted in the ceiling rose or remote.*

## 40081/NE Colibri

design emiliana martinelli, 2019

The 130-cm length module can be coordinated with other, similar modules to create square structures, or it can be used together with module Code No. 40082 and/or 40083 to create rectangular forms.
